

Friends,

On some days we feel ready to conquer the world. On other days, doesn't it feel great to hang out and relax in the company of family and friends?

'[Safe](#)', Oil painting by Holly Van Hart

'Safe' is for those other days. It is meant to carry a message of warmth and protection and love.

Look carefully at this painting and you can see two hands from two different people. Their right hands are coming together to protect their greatest treasure – a nest filled with eggs.

If you're wondering [why the hands are colored so boldly, click here.](#)

Wishing you a fun (and safe) summer!

Best,

Holly
